Commencement

Spring 2021 Program

COLORADO STATE UNIVERSITY
Alma Mater

Hail To Thee, Our Alma Mater, Colorado State.
Memories Are Everlasting Of This Place So Great!
May Thy Green And Gold Unite Us, Loyal Ever Be.
Colorado State, Our Alma Mater, Hail, All Hail, To Thee.

Colorado State University Seal

The Colorado State University seal is a modification of the official State of Colorado Seal, approved by the first General Assembly of the State of Colorado on March 15, 1877.

The seal consists of the eye of God within a triangle, from which golden rays radiate. Below the triangle is a bundle of birch or elm rods, wrapped with a scroll and around a battle axe bound by thongs. The scroll is called a Roman fasces and is the insignia of a republican form of government. The bundle of rods bound together symbolizes strength, which is lacking in the single rod. The axe symbolizes authority and leadership. Below the scroll is the heraldic shield bearing across the top three snow-capped mountains. The lower half of the shield has two miner's tools, the pick and sledge hammer, crossed on the ground.

As the University evolved, the seal was updated to reflect changes to the school's name. The original name was the State Agricultural College. In 1935, the name changed to Colorado State College of Agricultural and Mechanical Arts. In 1957, the name was again changed – this time to Colorado State University.

The original seal was made of hand-tooled leather. Damaged during the campus flooding of 1938, the original border was cut away in a random and arbitrary fashion and stitched back down on a new piece of leather in a scallop-like manner, giving the seal its current appearance.
Principles of Community

The Principles of Community support the Colorado State University mission and vision of access, research, teaching, service and engagement. A collaborative and vibrant community is a foundation for learning, critical inquiry, and discovery. Therefore, each member of the CSU community has a responsibility to uphold these principles when engaging with one another and acting on behalf of the University.

Inclusion: We create and nurture inclusive environments and welcome, value and affirm all members of our community, including their various identities, skills, ideas, talents and contributions.

Integrity: We are accountable for our actions and will act ethically and honestly in all our interactions.

Respect: We honor the inherent dignity of all people within an environment where we are committed to freedom of expression, critical discourse, and the advancement of knowledge.

Service: We are responsible, individually and collectively, to give of our time, talents, and resources to promote the well-being of each other and the development of our local, regional, and global communities.

Social Justice: We have the right to be treated and the responsibility to treat others with fairness and equity, the duty to challenge prejudice, and to uphold the laws, policies and procedures that promote justice in all respects.

Land Acknowledgment

Colorado State University acknowledges, with respect, that the land we are on today is the traditional and ancestral homelands of the Arapaho, Cheyenne, and Ute Nations and peoples. This was also a site of trade, gathering, and healing for numerous other Native tribes. We recognize the Indigenous peoples as original stewards of this land and all the relatives within it. As these words of acknowledgment are spoken and heard, the ties Nations have to their traditional homelands are renewed and reaffirmed.

CSU is founded as a land-grant institution, and we accept that our mission must encompass access to education and inclusion. And, significantly, that our founding came at a dire cost to Native Nations and peoples whose land this University was built upon. This acknowledgment is the education and inclusion we must practice in recognizing our institutional history, responsibility, and commitment.
Spring 2021

Dear Graduates:

Congratulations! On behalf of everyone at CSU – our faculty, our staff, and your fellow graduates and students – I am so excited to celebrate your graduation from Colorado State with you. This is an extraordinary achievement. Savor it, and savor being able to call yourselves alumni of Colorado State University now too. Our alumni make up a worldwide fellowship of amazing people like you.

Earning a degree always requires hard work and dedication. But this past year has been a year like no other. You’ve had to confront the most challenging period of your academic careers amidst some of the most challenging months in recent history.

None of you could have planned for earning your degree amid a global pandemic: it required more effort, more focus, and more motivation. But you did it. Your perseverance has put you on a path to success; your resilient spirit will carry you forward. When new challenges inevitably arise, you will be able to draw on your experiences and what they have taught you.

As you move on to the next phases of your lives, you are and will remain members of the larger CSU community, characterized by your brilliant minds and great hearts. Ours is a community that extends across our nation and around the globe. And today, more than ever, the world needs your brilliance to confront its increasingly complex challenges.

Our community also has a powerful, shining, bold spirit – one of hope and optimism, one that will not be dimmed by those challenges.

I am so, so proud of all of you, for your accomplishments as students, for your graduation, and for the amazing things I know you will achieve next. Know that you make all of us at CSU proud – today, tomorrow, and far into the future.

Warmly,

Joyce E. McConnell
President

Colorado State University originated in 1870 when the territorial legislature established an agricultural college at Fort Collins. This school qualified for endowment under the Morrill Act of 1862, which provided federal land grants to academic institutions offering instruction in “such branches of learning as are related to agriculture and the mechanic arts” and promoting “the liberal and practical education of the industrial classes in the several pursuits and professions of life.” Ideally, land-grant schools would make higher education more useful, accessible, and democratic.

Nearly a decade passed before classes began at Fort Collins, but in the interim, experimental work was conducted on the campus farm. How could the emerging modern sciences of physics, chemistry, and biology be applied to Colorado’s distinctive agricultural conditions? Which were the most suitable methods of soil use, irrigation, crop selection, animal care, and pest control? Answers demanded careful study, which an agricultural experiment station would soon provide. Research thus preceded teaching.

On September 1, 1879, President Elijah E. Edwards and a two-member faculty welcomed the first students to the college. In the beginning, a single course of study served all, and the original graduating class – George H. Glover, Leonidas Loomis, and Libby Coy – received degrees on June 5, 1884. By the turn of the century, however, the curriculum included fully developed majors in agriculture, engineering, and home economics, along with fledgling graduate-level work. Dedicated faculty contributed to this development, among them James Lawrence, Clarence Gillette, Theodocia Ammons, and Elwood Mead. Mead, for example, introduced the first instructional program in irrigation engineering to be offered by an American college or university, and Lake Mead, Nevada, commemorates his subsequent professional esteem.

Outreach augmented research and teaching. Knowledge generated in Fort Collins could benefit Coloradans beyond the home campus, and in 1880, the college began offering farmers’ institutes at various locations. Eventually, extension agents would provide locally focused service in all Colorado counties and launch enduring programs, such as 4-H. Research, teaching, and outreach were all key college activities when Charles A. Lory began a 31-year tenure as president in 1909. A former ditch rider, whose family had homesteaded in Colorado, Lory imbued the school with a commitment to practical education and service to the state. During his presidency, enrollments grew from 217 to 2,048, and the college developed into a well-rounded technical institution. By 1940, degrees were available in agriculture, engineering, home economics, veterinary medicine, forestry, vocational education, agricultural economics, and rural sociology. Notable faculty of the Lory era included Inga Allison, Lawrence Durrell, Walter J. Morrill, Isaac E. Newsom, Elizabeth Forbes, and Ruth J. Wattles.

These years also featured extracurricular activities and campus traditions. Fraternity and sorority life, Coach Harry Hughes’ football teams, and painting the “A” all left indelible memories. So did the calamity of the Great Depression, which posed exceptional challenges for Colorado’s land-grant institution as it worked to mobilize outreach support for the state’s hard-hit rural areas.

American involvement in World War II threw normal college routines into disarray. Enrollments plummeted as students and faculty left Fort Collins for military service. Although the college remained open because of President Roy Green’s success in bringing military training programs to the campus, national defense rather than collegiate goals prevailed. Research and extension efforts strongly emphasized agricultural output.

The post-war years saw an influx of veterans attending college on the G.I. Bill. In addition, Cold War tensions led to vastly augmented federal support for scientific research and training. Sponsored projects proliferated, as did graduate programs.

William E. Morgan, who became president in 1949, led the school’s emergence as a modern educational institution. A prudent planner, he foresaw the need for major campus expansion, identified areas of excellence, and encouraged their development. In 1955, the college awarded its first Ph.D. degree (to Adrian R. Chamberlain) and two years later changed its name to Colorado State University. Curricular improvements in the liberal arts, library acquisitions, and international programs gave legitimacy to the title of “university.”

During the 1960s, enrollments soared from 6,131 to nearly 17,000, enabling gifted teachers, such as Willard Eddy and Meyer Nathan, to influence numerous students. Young people of this era also seemed determined to exercise an influence of their own by challenging perceived injustices. Concerns about racism, military power, environmental despoliation, discrimination against women, and rules governing student behavior provoked protests.
Adrian R. Chamberlain succeeded William E. Morgan as president in 1969 amid campus unrest that culminated in the burning of the Old Main building in 1970. Chamberlain worked to consolidate university changes during a period of less rapid growth. By the conclusion of his 11-year tenure, the boom in American higher education had ended, along with the moral fervor of a youthful generation. Good jobs now elicited greater concern than good causes.

During the 1980s, Colorado State University faced many questions. Which programs would best serve a dynamic modern society? Could traditional commitments to agriculture and rural Colorado be balanced against escalating urban needs and international involvements? What role should computers and electronic networks play in facilitating education? The university addressed these and other critical issues despite administrative upheaval that featured three different presidents within a four-year period.

The 1990s imposed both new and traditional demands upon Colorado State University. Particularly notable was the flood of July 28, 1997. Despite devastating damage to the campus, including Morgan Library and the Lory Student Center Bookstore, CSU managed to start Fall Semester classes on time. This achievement reflected remarkable effort, which President Albert Yates defined as a challenge to make the university into “a better and stronger place in all of its dimensions.” During his 13-year presidency, which began in 1990, Yates provided leadership that significantly advanced this goal, seeking, in his words, to “always turn adversity to advantage.” CSU emerged from the flood with an enhanced sense of community, and its rebuilt campus was functionally and aesthetically superior to the earlier one. Under Yates, the quality of undergraduate and graduate education and research steadily improved, along with opportunities for women and underrepresented minorities. Faculty such as Temple Grandin, Stanley Shum, George Seidel, Stephen Withrow, Diana Wall, and Holmes Rolston achieved international renown, thereby enhancing CSU’s scientific and scholarly stature.

Intercollegiate athletics also flourished. Sonny Lubick’s winning football program, formation of the Mountain West Conference, and unprecedented success for women’s teams highlighted this trend. Olympic champion swimmer Amy Van Dyken and basketball All-American Becky Hammon were among the school’s best-known athletes.

Recently, CSU, like most public universities, has been severely tested by state, national, and global economic problems, along with competition for students by peer institutions and proliferating online academic programs. It has responded by diversifying resources, maintaining fiscal stability, and pursuing appropriate goals. For example, environmentalism has become an institutional objective, rekindling CSU’s longstanding research and teaching expertise in this realm. The university has emphasized science, technology, engineering, and mathematics education, while concurrently promoting the values of international understanding and responsible community involvement. It has also launched a significant building program that initially benefited from bargain construction savings during the Great Recession and consistently low interest rates. Additions included: living-learning residence halls, technology-enabled classrooms, a totally refurbished Student Center, and an on-campus stadium. Rarely has CSU’s commitment to the “power of place” been more evident than in the transformational character of its campus during the past decade – functionally, aesthetically, and sustainably.

Anthony A. Frank, inaugurated as CSU’s president in 2009, facilitated these changes. A faculty member since 1993, he subsequently held key administrative positions and worked actively to advance institutional priorities that embodied its land-grant educational heritage. Frank’s ten-year presidency emphasized academic excellence and the principles of inclusion, service, and social justice – thus providing an excellent foundation for Joyce McConnell, who became the 15th president of the institution on July 1, 2019. Just a few months into this position (leading up to the 150th anniversary of CSU’s founding) McConnell introduced the Race, Bias and Equity Initiative – designed to promote a welcoming and safe environment for the entire campus community. In 2020, she led the coordination of CSU research teams, administrators, and facilities staff in implementing proactive protocols to address the COVID-19 pandemic.

Today, tradition finds renewal in the academic ceremony of commencement – simultaneously celebrating past accomplishment, transition, and future promise. Since 1884, Colorado State University has bestowed 281,725 degrees. At present, 25,864 on-campus students, representing 104 nations, receive instruction from 1,896 faculty in eight separate colleges, plus the Graduate School. Research expenditures total $407.3 million annually. This vitality is rooted in a dynamic legacy that enables Colorado State University to address the challenges of the post-9/11 era. Historically, this school has embraced democratic opportunity, rewarded competence and merit, and instilled perseverance. It has advanced wisdom as well as knowledge. These values are crucial to sustaining human civilization in the 21st century.

– James E. Hansen II, Professor Emeritus of History
– Linda M. Meyer, Archivist, CSU Libraries
BOARD OF GOVERNORS OF THE COLORADO STATE UNIVERSITY SYSTEM

The Board of Governors consists of 15 members, 9 of whom are appointed by the governor of Colorado to serve four-year terms as voting members. Voting members may be appointed to a maximum of two four-year terms. The 6 non-voting members represent Colorado State University, Colorado State University-Pueblo, and Colorado State University-Global Campus. One faculty member and one student leader are representatives from each university.

Nancy R. Tuor, Chair
Kim Jordan, Vice Chair
Russell DeSalvo III, Secretary
Jane Robbe Rhodes, Treasurer
Polly Baca
Nathaniel “Nate” Easley, Jr.
Steven Gabel
Dean Singleton
Armando Valdez
Melinda Smith, Faculty Representative, Colorado State University (Non-Voting Member)
Neb Jaksic, Faculty Representative, Colorado State University-Pueblo (Non-Voting Member)
Harriet Austin, Faculty Representative, Colorado State University-Global Campus (Non-Voting Member)
Hannah Taylor, Student Representative, Colorado State University (Non-Voting Member)
Hanna Douglass, Student Representative, Colorado State University-Pueblo (Non-Voting Member)
Nicole Hulet, Student Representative, Colorado State University-Global Campus (Non-Voting Member)

COLORADO STATE UNIVERSITY LEADERSHIP

Dr. Anthony A. Frank, Chancellor of the Colorado State University System
Ms. Joyce E. McConnell, President of Colorado State University
Dr. Mary Pedersen, Provost and Executive Vice President
Mr. Brett Anderson, Special Advisor to the Provost and Interim Director, Translational Medicine Institute
Ms. Jenelle Beavers, Vice President for Strategy
Mr. Brandon Bernier, Vice President for Information Technology
Ms. Yolanda Bevill, Vice President for University Communications
Dr. Roe Bubar, Interim Vice President for Diversity
Dr. Sue Doe, Chair, Faculty Council
Ms. Kathleen Fairfax, Vice Provost for International Affairs
Dr. Blanche M. Hughes, Vice President for Student Affairs
Dr. Sue James, Vice Provost for Faculty Affairs
Dr. Laura Jensen, Vice Provost for Planning and Effectiveness
Mr. Jason Johnson, General Counsel, Office of the General Counsel
Ms. Lynn Johnson, Vice President for University Operations and Chief Financial Officer
Dr. Kelly Long, Vice Provost for Undergraduate Affairs
Ms. Jannine R. Mohr, Deputy General Counsel
Dr. Blake Naughton, Vice President for Engagement and Extension
Mr. Joe Parker, Director of Athletics
Ms. Diana Prieto, Vice President for Equity, Equal Opportunity and Title IX
Dr. Alan S. Rudolph, Vice President for Research
Dr. Mary Stromberger, Vice Provost for Graduate Affairs and Dean of the Graduate School
Ms. Leslie Taylor, Vice President for Enrollment and Access
Dr. Kim Tobin, Vice President for University Advancement
Ms. Karen Estlund, Dean of CSU Libraries
Dr. John P. Hayes, Dean of the Warner College of Natural Resources
Dr. David I. McLean, Dean of the Walter Scott, Jr. College of Engineering
Dr. Janice L. Nerger, Dean of the College of Natural Sciences
Dr. James Pritchett, Dean of the College of Agricultural Sciences
Dr. Mark D. Stetter, Dean of the College of Veterinary Medicine and Biomedical Sciences
Dr. Beth Walker, Dean of the College of Business
Dr. Ben Withers, Dean of the College of Liberal Arts
Dr. Lise Youngblade, Dean of the College of Health and Human Sciences

**GRADUATE SCHOOL**
Dean Mary Stromberger

**DOCTOR OF PHILOSOPHY**

### Agricultural and Resource Economics
Larbe, Salvador
Adviser(s): Dale Manning and Jordan Suter
Dissertation: Three Essays on Water, Pollution, and Energy Economies

### Agricultural Biology

#### Biobiological Sciences
Karim, Shaista
Adviser(s): Amy Charkowski and Pankaj Trivedi
Dissertation: Biology and management of Blackleg Disease of Potato Caused by Dickeya dianthicola (ME23)

Nasruluddin, Alfan Shahwan Bin
Adviser(s): Amy Charkowski
Dissertation: The Curious Case of Chemotaxis in Soft Rot Pectobacteriaceae

### Animal Sciences
Sanchez Castro, Miguel Angel
Adviser(s): Milt Thomas and Scott Speidel
Dissertation: Random Regression Models and Their Impact in the Genetic Evaluation of Binary Fertility Traits in Beef Cattle

### Atmospheric Science
Bukowski, Jennifer
Adviser(s): Sue Van Den Heever
Dissertation: Mineral Dust Lofting and Interactions with Cold Pools

Lee, Yoonjin
Adviser(s): Zupanski and Christian Kummerow
Dissertation: Using GOES-16 ABI Data to Detect Convection, Estimate Latent Heating, and Initiate Convection in a High Resolution Model

Nagel, Alexandra Claire
Adviser(s): David Randall
Dissertation: The Influence of Cloud Radiative Effects on Hydrologic Sensitivity and Variability

### Biomedical Sciences
Byers, Nathan Scott
Adviser(s): Susan Tismanova
Dissertation: NAV Activated K+ Channels Protect Against Overexcititation and Seizure-Like Behavior in Drosophila

Ebad, Abdona Omar A
Adviser(s): Susan Tismanova
Dissertation: Cholinergic Synaptic Homeostasis is Regulated by Drosophila a7 Nicotinic Acetylcholine Receptors and Kv4 Potassium Channels

Heise, Natasha
Adviser(s): Tod Clapp
Dissertation: Evaluating Curricular Implementation Techniques to Enhance Anatomy Education

### Cell and Molecular Biology

#### (Graduate Degree Program in)

#### Cell and Molecular Biology
Crowne, Kathryn Elizabeth
Adviser(s): Daniel Gustafson and Dawn Duval
Dissertation: Identification of Therapeutic Targets in Caneine Bladder Cancer: A Translational Model for MAPK Pathway-Targeted and Immune-Based Therapies

Doucette, Katlin Ashley
Adviser(s): Debbie Crans
Dissertation: The Use of Model Membrane Techniques for the Analysis of Interactions, Conformation and Redox Properties of Menaquinones and Other Small Molecules

Selemenakis, Platon
Adviser(s): Claudia Wiebe
Dissertation: Functional Redundancy between the RAD51 Accessory Proteins RAD51AIP1 and RAD54 in Homologous Recombination DNA Repair

### Chemical and Biological Engineering

#### Chemical Engineering
Sebesta, Jacob Christopher
Adviser(s): Christie Peebles
Dissertation: Development of Genetic Parts for Improved Control of Translation Initiation in Synchoecysis SPPC6 6803 with an Application in Biofuel Production

### Chemistry
Armstrong, James Edward
Adviser(s): Chris Ackerson
Dissertation: Glyme-Synthesized Nanomaterials

Borgognoni, Kandia Marie
Adviser(s): Chris Ackerson

Lacroux, Matthew Richard
Adviser(s): Steven Strauss
Dissertation: Static and Dynamic Study of Metal Salt Hydrates of Weakly-Coordinating Fluoranions by Vibrational Spectroscopy, Gravimetry, and an Analysis of Previously Published X-Ray Structures

Lee, Jennifer Minkyung
Adviser(s): Amy Prieto
Dissertation: Development of a Multidisciplinary Toolkit for the Collodial Nanoparticle Synthesis of Copper Selenophosphate CaXPS6, a Promising Material for Photovoltaics

Matulla, James Michael
Adviser(s): Delphine Farmer
Dissertation: Using Chemical Ionization Mass Spectrometry to Probe Indoor and Outdoor Atmospheric Chemistry

Whitehead, Christopher Breck
Adviser(s): Richard Finke
Dissertation: Determination of Reliable Minimum, Disproof-Based Formation Mechanisms: Investigation of a Second-Generation Ir0(0) Nanoparticle System

### Civil and Environmental Engineering

#### Civil Engineering
Beskitepe, Deniz
Adviser(s): Mehmet E. Ozbek and Rebecca Atadero

Deng, Chendi
Adviser(s): Ryan Bailey
Dissertation: High-Groundwater in Irrigated Regions: Model Development for Assessing Causes, Identifying Solutions, and Exploring System Dynamics

### Environmental Science and Sustainability

#### Watershed Science
Hicks, Heather Brainerd
Adviser(s): Melinda Laituri
Dissertation: Landslide Riskscapes in the Colorado Front Range: A Quantitative Geospatial Approach for Modeling Human-Environment Interactions

#### Economics
Barati, Fatihulla Nour
Adviser(s): Daniela Tavani and Robert Kling
Dissertation: Three Essays on the Effect of Domestic Inequality and Global Inequality on Growth

McCarthey, Christopher David
Adviser(s): Ramas Vasudevan
Dissertation: Three Essays on U.S. Foreign Assistance Spending and U.S. Politico-Military Integration

### Electrical and Computer Engineering

Cooper Ast, Biological Science major with Biological Science concentration. Thesis title: Development of a Novel and Adaptable RNA Extraction Method.

Lindsey Boesen, Biological Science major with Biological Science concentration. Thesis title: Skin as an Indicator of Disease: Diabetes Mellitus.

Monique Brousard, Chemistry major. Thesis title: Improving Non-Invasive in Vivo Imaging Technique With NMR Temperature Sensitivity of Tris(ethylene diamine) Cobalt (III) and Anion Species Citrate, Tartrate and Acetate.

Chenoa Colon, Biological Science major with Biological Science concentration. Thesis title: The Potential of Integrating Adoptable Canines into Higher Education Academic Environments.

Ryann Daly, Chemistry major ACS certified and Mathematics and Nutrition minors. Thesis title: Characterizing the Influence of Hemp Protein in Modifying the Food Product Matrix Delivery System of Blueberry Polyphenol Extract to Increase Bioavailability and Usefulness of Phytochemicals.

Andres Fernandez, Biochemistry major with ASBMB concentration and Music and Molecular Biology minors. Thesis title: Classifying the Role of the Bip1 Protein in Yeast Clathrin-Mediated Endocytosis.

Jasmine Gallegos, Biological Science major with Biological Science concentration and Creative Writing and Computer Science minors. Thesis title: The Effects of High Intensity Exercise on the Shedding of Parasite Eggs.

Samantha Harris, Biochemistry major with General Biochemistry concentration, Spanish and Molecular Biology minors and Spanish for Animal Health Care certificate. Thesis title: Apolipoprotein E in Metabolic Disease Sates and Human Longevity.

Tatiana Jourdan, Zoology major and Business Administration, Global Environmental Sustainability and French minors. Thesis title: Ram Cash Usage off Campus.

Mariah Mauro, Biological Science major with Biological Science concentration. Thesis title: The Importance of Exercise During Adolescence.

Will McDonald, Computer Science major with Human-Centered Computing concentration. Thesis title: Sense of Self - A Music Composition Project.

Darcy Moore, Biological Science major with Biological Science concentration. Thesis title: Engineering a Model Cyanobacterium to Renewable Produce Isobutyraldehyde.

Camille Moss, Biological Science major with Biological Science concentration and Biomedical Sciences minor. Thesis title: Effectiveness of Different Training Strategies in Dogs.

Aritza Vanessa Rivera, Biochemistry major with Health and Medical Sciences concentration and Languages, Literatures and Cultures major with Spanish concentration and Chemistry minor. Thesis title: Scorpion Venom: An Assessment of Cancer Treatments and Their Biochemical Pathways.

Lileana Rogers, Biological Science major with Biological Science concentration and International Development minor. Thesis title: Integrative Medicine as a Solution to Criticisms of Biomedicine and Mechanism of Increasing Cultural Competency in Health Care.

Madison Schuster, Biological Science major with Biological Science concentration and Spanish minor. Thesis title: An Assessment of the Holistic Well-Being of ROTC Cadets During Physical Fitness Training and Implications for Performance and Recovery.

Caroline Wendt, Mathematics major with General Mathematics concentration and Statistics major with General Statistics concentration. Thesis title: Weaving accessible technologies into a bookdown framework to enhance user accessibility and promote inclusivity of reproducible research.

Emma Wilson, Psychology major with Addiction Counseling concentration and Spanish minor. Thesis title: Assistant Professor Department of Psychology.

Owen Zielinski, Biochemistry major with ASBMB concentration and Psychology major with Clinical/Counseling Psychology concentration. Thesis title: The Potential Usage of Nitrosine as a Treatment for Hawkinsinuria.

* Candidates with minor
+ Candidates with second major
^ Candidates for cum laude
# Candidates for magna cum laude
= Candidates for summa cum laude

Joey Boeher, Microbiology major. Thesis title: Mycobacterial Growth and Division Cycle Regulation.

Jamie Burke, Biomedical Sciences major and Spanish and Chemistry minors. Thesis title: Socioeconomic Discrepancies in Fetal-Maternal Medicine.

Gillian Cook, Biomedical Sciences major. Thesis title: Genome Editing as a Therapeutic Tool in Huntington’s Disease.

Morgan Edstrom, Biomedical Sciences major and Spanish minor. Thesis title: Path to PA.

Julie Elwyn, Biomedical Sciences major. Thesis title: The Importance of Physiology in High School Science Curriculum.

Hadley Frisby, Biomedical Sciences major and Nutrition minor. Thesis title: Instructional Anatomy Videos as an Enhancement to In-Person Learning: Focus on Attachments, Insertions, and Actions of Muscles.

Kristin Hinsen, Biomedical Sciences major. Thesis title: Efficacy of Nitric Oxide as an Alternative Therapeutic for Neuroblastoma.

Lauren Houdesheldt, Environmental Health major and Biomedical Sciences minor. Thesis title: Combating the Spread of Zoonotic Diseases.

Aidan Lewis, Neuroscience major with Cell and Molecular Neuroscience concentration. Thesis title: Fear and Hope: An Integrative Neuroscience Model For Values and Decision-Making.

Kolby Moore, Biomedical Sciences major. Thesis title: Return to Sport After Injury.

Jenna Nguyen, Biomedical Sciences major. Thesis title: Female Arousal: What Does or Does Not Cause the Sparks?.

Raegan Petch, Microbiology major and Spanish and Chemistry minors and Spanish for Animal Health Care certificate. Thesis title: Frequent Spillover of Feline Leukemia Virus From Domestic Cats to North American Pumas.

Emily Ranieri, Biomedical Sciences major and Conservation Biology minor. Thesis title: Enrichment Techniques for the Wholistic Care of Large Felids in Zoological Settings.

Sydney Suckling, Biomedical Sciences major. Thesis title: Ulcerative Colitis and the Lives of Young Adults.

Mollie Uhrig, Microbiology major. Thesis title: Understanding the Role of RAD51AP1 in Affecting the Susceptibility to Radiation Carcinogenesis in Mice.

Jasmin Valadez, Neuroscience major with Behavioral and Cognitive Neuroscience concentration and Spanish minor. Thesis title: An Examination of Socioeconomic Differences in Brain Development: Mediators and Targets for Change.

Ricardo Vazquez, Biomedical Sciences major with Health and Medical Sciences concentration and Biochemistry major. Thesis title: Shedding Light on Type 2 Diabetes Mellitus: Translating Novel Diagnostic and Therapeutic Approaches to Increase Disease Understanding and Prevention.

Olivia Wennstedt, Biomedical Sciences major and Spanish minor. Thesis title: ¡Quieres Ser Veterinario?

Alix Young, Biomedical Sciences major and Chemistry minor. Thesis title: Flipbook of Human Anatomy.

Maia Zoller, Neuroscience major with Cell and Molecular Neuroscience concentration. Thesis title: The Role of Microglia in Neuronal Cofilin Pathology: A Possible Target for Therapeutic Intervention in Neurodegenerative Disease.

WALTER SCOTT, JR. COLLEGE OF ENGINEERING
CANDIDATES FOR UNIVERSITY HONORS SCHOLAR
Spring and Summer 2021

Taylor Ausec, Chemical and Biological Engineering major and Biomedical Engineering and Chemistry minors. Thesis title: Engineering Design of Human Mesenchymal Stem Cell Production for the Treatment of Spinal Cord Injuries.

Jack Burns, Chemical and Biological Engineering major and Business Administration minor. Thesis title: Engineering a Safe Inhibitor for the Enzyme Trypsin.

Christina Chang, Mechanical Engineering major with Aerospace Engineering concentration. Thesis title: Spaceport America Cup Rocket Team.

Kiley Dindinger, Civil Engineering major. Thesis title: Cameron Peak Fire Erosion Mitigation.

Joanna Dunne, Biomedical Engineering with Mechanical Engineering major. Thesis title: Canine Exoskeleton for Rehabilitation.

Sarah Easton, Biomedical Engineering with Chemical and Biological Engineering major and Mathematical Biology minor. Thesis title: Cancer Immunotherapy: A Review.

Benjamin Farkas, Biomedical Engineering with Chemical and Biological Engineering major. Thesis title: Real-Time Augmented Reality Ultrasound Display System.

Logan Farrand, Biomedical Engineering with Mechanical Engineering major. Thesis title: Medtronic Pediatric Spine Clamp Senior Capstone (Engineering).

Samantha Fischer, Civil Engineering major. Thesis title: Jackson Ditch Rehabilitation.

John Fleischmann, Biomedical Engineering with Mechanical Engineering major. Thesis title: Quatro Socket Engineering Analysis.

Emily Hoffmann, Biomedical Engineering with Mechanical Engineering major and Mathematics minor. Thesis title: Ultraviolet Germicidal Irradiation Device (Senior Design).

Kyle Howe, Chemical and Biological Engineering major and Music major with Performance concentration. Thesis title: An Educational Module on Designing and Simulating an Ethanol Chemical Plant.

Ting Yu Hsu, Biomedical Engineering with Chemical and Biological Engineering major and Music major with Performance concentration. Thesis title: Developing a Real-Time Augmented Reality Ultrasound System Utilizing Microsoft HoloLens 2.

Rachel Keating, Biomedical Engineering with Chemical and Biological Engineering major and Mathematics minor. Thesis title: Wireless Smart Junctional Tourniquet.

Abigail Maben, Mechanical Engineering major. Thesis title: Urban Air Quality Impacts Inferred From Ground-Based Monitoring Networks Due to Geographic Variability and the COVID-19 Pandemic.

Hannah Mabry, Biomedical Engineering with Chemical and Biological Engineering major and Mathematics minor. Thesis title: Cairn: A Grateful Reflection in Photopotaery.

Elise Ng, Biomedical Engineering with Mechanical Engineering major. Thesis title: Pediatric Spine Clamp.

Layne Perry, Civil Engineering major. Thesis title: Brumadinho What If Project.

Emily Radtke, Chemical and Biological Engineering major and Environmental Engineering minor. Thesis title: Drone Detection of Harmful Algal Blooms - Design Phase of an EPA-P3 Project.

Mehdi Rubaii, Chemical and Biological Engineering major and Mathematics major with General Mathematics concentration. Thesis title: Vector Bundles and Swarts Theorem.

Rebecca Schaldach, Mechanical Engineering major. Thesis title: Replication of the Mechanical Loading of Rotator Cuff Tendons for the Development of Implantable Scaffolds in Rotator Cuff Repair.

Kayla Schultz, Civil Engineering major and Global Environmental Sustainability minor. Thesis title: Larimer County Floodplain Modeling and Mitigation.
